You can add motion and particle effects to spice up your images. Samsung could have a simple solution if you are tired of the live wallpapers that come with your Galaxy phone: create your own. XDA notes that Samsung has released a Good Lock app and a module, Wonderland, that lets you create your own live wallpaper with relatively little fuss. All you need to do is select a base image and apply both motion and particle effects to add flair to it. There are also pre-supplied templates if you don't want to spend a lot of time perfecting the look. You can also preview wallpaper in Wonderland so you don't have to apply it to your phone to see how well it works. The wallpaper app is available in English and Korean through Samsung's Galaxy Store, although it's simple enough that you may not need translations if you prefer a different language. There is no mention of language supplements at this stage. Read more: The best live live Apps for AndroidWonderland is not the most sophisticated live wallpaper creation tool. It's free, however, and it makes live wallpapermore accessible to people who might otherwise be satisfied with their phone-containing backdrops. This can be what you suggest to friends and family who are new to wallpaper, or something you use yourself if you prefer to spend more time on your phone than tinker with it. Tired of seeing the same boring image on your display? Do you want you to give your Android screen a new life? Let's see how to set live wallpaper to Android and find new ones. What is Live Wallpaper? We are all familiar with wallpaper that are static beautiful images we use as background on PC, tablet and smartphone devices. However, live wallpapers are more advanced and dynamic, which allows users to interact in any way. They are animated or move when the device moves or a user interacts with the screen elements. Ways to find, install & set up Live WallpaperThere are several ways to start with Live Wallpapers on Android. All devices have pre-installed apps that let you select one and start viewing it right away. And you can also buy or download for free more from Google Play Store. In addition, there are apps that allow you to create your own graphical interactive images or gif images. Below you will find everything you need to know. How to use pre-installed Live Wallpaper? Each device comes with pre-installed live wallpapers presenting the style, theme and brand design of the manufacturer. Just go to the home screen, tap and hold on to an empty room. In a few moments, a pop-up menu will appear that shows the background settings in which you can select the one you want. How do I install Android Live Wallpaper apps? Open Google Play on your device's home screen. Scroll to the left of the top menu until categories appear and select it. Scroll down the list until you see Live Wallpapers and select it. Browse the selection of available apps. You can select Top Paid, Top Free and Top Grossing from the top menu to display the most popular wallpapers in each category. Once you install something like on your device, select it. Alternatively, you can follow our recommendation of the best free live wallpaper apps. Select 'Install'. You can also download and install a live wallpaper apk file from a trusted source. Sometimes respected creators share their app in different forums. Just make sure it's not malware. Set up new Live WallpaperMost of the offers different settings and customization. Follow these steps to set them up. Go to your device's Settings menu. Select 'Display'.Select 'Wallpaper'.Choose either 'Home Screen' or 'Home and Lock Screens'.Select 'Live Wallpaper', and then select what you installed before google Play. Choose 'Set Wallpaper' and you are all set! How do you make your own personalized wallpapers? Can't find the perfect animation or scenery for your screen? Why not make your own to use images? We recommend using an app like KLWP Live Wallpaper Maker to create custom live wallpapers. KLWP Live Wallpaper MakerPrice: Free with ads/offers IAPKLWP is the most popular choice to create customized items for your home screen like watches on, animated patterns, live map background, weather widget, CPU/memory meter, randomly move or scroll images, gyroscopic effects and more. Empty live wallpapers the battery? Live wallpaper tends to consume a significant amount of battery life it consumes more resources than a static one. However, faster battery emptying doesn't seem to be drastic, as modern apps are well optimized. However, be careful when using your device without charging for a significant amount of time or in a situation like camping. Can live wallpapers have sound? Many live wallpapers have sound and let users interact with some elements that respond with sound. For example, Space Battle is a video game-oriented live wallpaper that has cool sound effects. Wrapping upHopefully you are now an expert to make tweaks and show your homescreen friends. Also, if we have missed something or you have some tips then just put them in the comments below. The live wallpapers are essentially wallpapers that have some form of animation. There are several prestressing wallpapers that can be selected from (usually 14 in total). Android Market may include additional wallpapers for free or for a fee. (i.e. must be paid). To set the live wallpaper, please see the information below: 1. Tap apps. 2. Select Settings. 3. Select Show in My Device. 4. Choose wallpaper. 5. Select the home screen. 6. Choose live wallpapers. 7. Choose the desired live wallpaper. Wallpaper.
